Assistant Commissioner for Patents Washington, D.C. 20231

TECHNOLOGY CENTER R3700

Dear Sir:

In response to the restriction requirement mailed on 24 May 2002, Applicants elect Claims 1-13, with traverse. In addition, please enter the following amendment:

14. (Amended) A carrier for unitizing a plurality of containers, the carrier having an unstressed condition prior to application to the plurality of containers and a stressed condition subsequent to application to the plurality of

I hereby certify that this correspondence (along with any paper referred to as being attached or enclosed) is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to: Assistant Commissioner for Patents, Washington, D.C. 20231 on

Cont

adjacent containers with an applicating machine, each container of the plurality of adjacent containers having a maximum diameter, the carrier comprising:

a sheet of flexible plastic having a plurality of elongated apertures aligned in longitudinal rows and transverse ranks, which elongated apertures are oriented in a longitudinal direction of the carrier and in the unstressed condition have a longitudinal pitch between each adjacent elongated aperture, the longitudinal pitch having a first length greater than a distance between adjacent containers of the plurality of adjacent containers;

a plurality of relief holes positioned in the sheet, the relief holes positioned between adjacent longitudinal rows of elongated apertures; and

a container pitch between each adjacent elongated aperture when the carrier is in the stressed condition after application to the containers, the container pitch having a second length approximately equal to the maximum diameter and shorter than the first length.

No additional fee is necessary as the total number of claims remains the same.

REMARKS

The restriction requirement is respectfully traversed in view of the foregoing amendment. The restriction requirement was premised on the assertion that the device (Claims 14-18) may be applied by hand and thus may be used in a ITW-12833
